

Application form: Margaret O'Donnell Prize in Psychiatry

Award Description:

The Margaret O'Donnell Prize is awarded to a senior medical student who has been highly involved in behavior health issues and done outstanding academic work in psychiatry. Attributes considered during selection include clinical skills, community support, community development, scholarship, and research. Activities since admission to medical school will be given greater consideration.

The recipient receives a cash award of \$600

- 1) In 250 words or less please describe how you have been involved with behavioral health care during medical school.

- 2) Submit your Curriculum Vitae

- 3) Optional:

Please provide contact information for one or two individuals as references. The Award Committee will reach out to those you identify to discuss your award-related activities.
